Dear Client,

Welcome to Applus IDIADA. You are now at our company headquarters and main technical centre, in a site known as l’Albornar.

Applus IDIADA’s laboratories and proving ground constitute a comprehensive state-of-the-art automotive testing complex in the hands of a pure engineering company, independent from any vehicle or component manufacturer. Our automotive engineers form part of a growing number of professionals dedicated to contributing to our clients’ success in all their product development activities, here or anywhere they wish to engineer their products.

Applus IDIADA’s values are independence, an innovative spirit, a passion for work well done, confidentiality and client orientation. We will do our best to make your stay as productive as possible to help ensure you achieve your goals.

I would like to wish you every success with your activities here and take the opportunity to remind you that our Client Support staff can be contacted on ext. 43109 and at customerexperience@idiada.com.

Yours faithfully,

Josep Maria Farran
Chief Executive Officer
Applus IDIADA Group
Applus IDIADA is a global partner to the automotive industry with over 30 years’ experience supporting its clients in product development activities by providing design, engineering, testing and homologation services. IDIADA’s success in product development is built on a unique blend of highly experienced engineers, state-of-the-art test and development facilities and the constant drive towards innovation. The company has more than 3000 professionals and an international network of 58 subsidiaries and branch offices in 22 countries, ensuring its clients receive fast, customized solutions.

We offer a wide range of vehicle development services ranging from design to final validation. Our experience in conducting both real and virtual tests makes us experts in the main vehicle functionalities. Our key services cover the fields of passive safety, active safety, powertrain, electronics, comfort and reliability, among others.

IDIADA has the most comprehensive proving grounds in Europe and Asia, located in Spain and China. Both facilities offer excellent customer support and a wide variety of test tracks with the highest standards of safety and confidentiality.

IDIADA offers homologation services in accordance with all European EC and ECE Regulations. We are also accredited for Australia, Europe, Japan, Taiwan, Malaysia and give consultancy services to other countries and regions such as South America (including Brazil), China, Russia, Middle East, Gulf Countries, ASEAN, USA, Canada, among others.

Design and development of test facilities and proving grounds for clients around the world, combining IDIADA’s experience and know-how to meet each client’s specific requirements.

Design, organization, management and execution of tailor-made events according to our clients’ objectives.

Please visit our web page www.Applusidiada.com and follow us on:
MAPS OF L’ALBORNAR

Speed limit is 30 km/h except on the roads which are marked as 50 km/h.

MEETING ROOMS
Welcome to Applus IDIADA Proving Ground, the most comprehensive independent proving ground in Europe

Each team is assigned a representative from Proving Ground Client Services who will act as the main contact during your stay with us. Your team’s representative will supervise all aspects of your booking and provide support for your team during your testing activities.

PROVING GROUND PERMITS
pg_safetybriefing@idiada.com
Control Tower

All persons who drive (not passengers) on the Proving Ground are required to hold an up-to-date IDIADA Proving Ground Driver Permit. The 2.5-hour course (Monday–Friday) is organized by PG Client Services and consists of a presentation of the Driving and Safety Regulations followed by an orientation visit to the Proving Ground. Anyone wishing to attend must make an appointment. Access to the Proving Ground will be denied until a valid permit is acquired.

CONTROL TOWER RECEPTION
46004 or 0034 977 166 004
Control Tower

Monday to Friday  5:30 – 22:45 / Saturday to Sunday  7:00 – 19:00

SERVICES OFFERED INCLUDE:
• Fuel cards
• EV charging cards
• Carwash bridge cards
• General enquiries
• Airport shuttle
• Taxi services
• Motorway transponder rental

WORKSHOP SUPPORT
pg_workshops@idiada.com 41518
Workshop D1

Monday  6:00 – 21:00 / Tuesday to Friday  7:00 – 21:00
Saturday & Public holidays  8:30 – 17:30

SERVICES OFFERED INCLUDE:
• Forklift loading / unloading services (mounted pallets only)
• Air–con recharging
• Wheel alignment
• Material storage
• Recycling and waste disposal services
• Mechanic support
• Welding and tool rental
• Replacement parts and tyres

* Additionally, you may contact Workshop Services concerning any maintenance issues.
SERVICES OFFERED INCLUDE:

- Rental vehicles for testing / transport purposes
- Material / Vehicle transport solutions
- Catering and conference facilities
- ADAS & CAV track reservations
- External Noise track reservations
- Towing Dynamometer rental
- External circuit (Castellolí, Alcarràs) reservations
- Sierra Nevada test support and accommodation booking
- Climatic Chamber rental
- Exclusive track reservations
- Customer clearance support
- Special / Reference fuel

* For Proving Ground historical weather records, real-time weather data, track restrictions and other useful information, please visit: http://extranet.idiada.com/hq-pg-info

* Receive all the latest information and news from IDIADA Proving Ground by joining our new communication channel on Telegram: @Applus_IDIADA_ProvingGround

**CONFIDENTIALITY**

It is forbidden to enter or use within the complex any image recording systems, such as cameras, video cameras, mobile phones with camera, etc. unless you have written permission from Applus IDIADA. We kindly ask for your collaboration in helping us maintain confidentiality. If you need to bring a camera or image recording device into the complex please inform your contact person, and they will arrange this matter with the Applus IDIADA Security department.
To keep on improving our current facilities to offer the latest automotive technologies under strict safety and environmental standards, IDIADA operates dedicated EV charging facilities for its clients.

To activate the chargers, request an E-Charge Card from Control Tower Reception Desk.

© 46004 or 0034 977 166 004

SERVICE SUPPORT

IDIADA has implemented a dedicated onsite support service for its EV charging facilities to supervise the installations. This ensures maximum capacity of available resources and provides instant support to users, resulting in increased service efficiency.

© 0034 615 361 124

echarge@idiada.com

EV Charging Station
IDIADA has installed **23 rapid and ultra-rapid** chargers within the **3 dedicated EV Charging Stations**.

**10 additional 22 kW** chargers are also available for Proving Ground customers at locations throughout the complex.
**EV CHARGING FACILITIES**

IDIADA has constructed and operates all its EV charging facilities to strict safety and environmental standards.

- Flame and smoke sensors
- Emergency shutdown buttons
- Fire detection cameras
- Wastewater collection system
- Fixed and mobile extinguishing system

Mobile phones with camera

We exceptionally allow our clients to enter with camera mobile phones by placing a security sticker on the cameras. We remind you that in compliance with our security policy, it is not permitted to remove the sticker during your stay.

Requesting permission to take photographs in our facilities

If you need to bring a camera or image recording device into the complex please inform your contact person, who will make the necessary administrative arrangements with the Security department.

Actions in case of suspicious activity or emergency

If you detect any anomaly, please contact the Security department on telephone
+34 977944974 *

* If you are calling from an Applus IDIADA telephone, the internal extension is 2222

The fact that different manufacturers test at our facilities means that Applus IDIADA carries out an exhaustive supervision of confidentiality, and we kindly ask for your collaboration in helping us maintain it.

It is forbidden to enter or use within the complex any image recording system, such as cameras, video cameras, unless you have written permission from Applus IDIADA.
CATERING

TICKETS
The tickets are sold in the vending machine located in the restaurant. Payments can be made by cash or credit card. In case the machine is out of service, tickets may also be purchased inside the canteen.

SPECIAL CATERING
Applus IDIADA can also help with special catering requests such as coffee breaks or catering services in the workshops or meeting room.

Please ensure that all vehicles and parcels sent to Applus IDIADA are properly identified with all the data indicated in the label below. Applus IDIADA reserves the right to reject or not authorize the entrance of parcels or vehicles that are not properly identified. If you are expecting an urgent parcel outside these hours, please inform your contact person at Applus IDIADA in advance or our logistics department directly at logistics@idiada.com.

Applus IDIADA can also manage the return of articles to origin or sending them to another part of the world, if necessary. Any administration work done by Applus IDIADA for customs may involve an additional cost that the client will be informed about beforehand, and which will be invoiced accordingly.

IDIADA offers extensive logistical support to its clients, with the objective of guaranteeing the transport of any goods needed to carry out the tests.

SERVICES OFFERED INCLUDE:

• Analysis of all types of transport operations, worldwide import/export for testing wherever requested and possible
• Turnkey tailor-made door-to-door solutions through couriers or dedicated transporters
• Capacity to import on temporary basis with IDIADA bond deposit, lowering the costs of importation, and saving duties and taxes
• Last mile dedicated delivery service at IDIADA
• Packaging service at IDIADA facilities
• Dangerous goods transportation and packaging expertise

THE PARCEL MUST BE IDENTIFIED AS FOLLOWS:

DANGEROUS GOODS SHIPMENTS

Please contact your Proving Ground customer service person informing whether you have dangerous goods. Proving Ground staff (46004 / pg_client@idiada.com).
At Applus IDIADA, safety is our number one priority. To ensure a safe and healthy work environment, it’s important that all employees and visitors follow the company’s operation, safety, and hazard prevention rules.

To help prevent accidents and injuries, make sure to follow safety signs and use the recommended and mandatory protective equipment. If you’re not authorized to use any equipment or vehicle, request it from your Applus IDIADA contact person or your supervisor.

At Applus IDIADA’s workshops/boxes, along with the work equipment provided by Applus IDIADA, you will find Safety Information Sheets whose instructions must always be followed in order to prevent accidents and to work safely.

The use of forklift trucks, lifting platforms, and other special machinery, as well as work at height (over 2 metres), is only allowed to be done by authorized and trained personnel.

When handling or using chemical products, consult and follow the safety and prevention measures detailed in the Safety Data Sheet (SDS) and use the protective equipment specified in it. These SDS must be kept available for consultation in the work area.

If you drive vehicles, you must have the appropriate driving license for the type of vehicle used. Remember always to obey the Proving Ground Driving and Safety Regulations on Applus IDIADA’s test tracks.

The maximum speed inside the Applus IDIADA complex is 30 km/h (except in the Proving Ground).

The consumption of alcohol or drugs is prohibited.

You must cross the roads and walk around the complex using pedestrian crossings and pathways. Take special care in traffic areas.

Smoking is only allowed in designated outside areas.

Keep work areas clean and tidy. If you detect a hazard, report it immediately to your Applus IDIADA contact or supervisor.

If necessary, you can seek assistance from our Medical Service located in the Proving Ground Control Tower building.

HAZARD PREVENTION RULES

IN CASE OF EMERGENCY

Steps to follow if you detect a fire or incident:

Call 2222 (if using internal phone) or 977 944 974

GIVE THE FOLLOWING INFORMATION:

• Your name
• Exact location of incident
• Type of incident
• If anyone has been affected by the incident
• Don’t hang up the phone until told to

What are the alarm signals of a fire or evacuation?

Announcement via megaphone system

Who should I contact if I detect an emergency?

Call 2222 or 977 944 974

In the event of evacuation what steps must I follow and what is the escape route?

• Don’t use lifts
• Don’t stop to pick up personal belongings
• Follow the instructions of the emergency personnel
• If you are attending a visit, accompany them during the evacuation
• Don’t stop in the exits or try to go back
• If there is smoke walk bent over or crawl out
• Go to meeting point

Where are the staff meeting points?

There are six designated meeting points:

• Opposite the Main Building and the Powertrain Building
• In Front of the parking space in the Control Tower area
• At the end of Homologation Street
• On the access road to the Workshops area
• In Front of the J1 Workshop
• In Front of the C12 Workshop
Applus IDIADA Automotive Technology is committed to helping protect the environment and has decided to implement its environmental management system according to ISO 14001:2015.

For our activities to become more sustainable and reduce their impact on the environment, various good operating practices have been put into effect. Below you will find some examples. We invite you to help us!

**WASTE MANAGEMENT**

- Applus IDIADA performs a selective collection of wastes generated by its activities and services
- Applus IDIADA offers a collection and management service for waste generated during your stay at our facilities. Only authorized waste managers and transporters are used in order to fulfill current regulations
- Confidential sample destruction is supervised by IDIADA staff and Destruction Certificates can be requested from the Waste Manager

**WASTE COLLECTION**

- Waste needs to be selectively stored and each different waste type should be properly identified to ensure it is correctly managed
- Cardboard needs to be folded to maximize the use of the container
- If you have any questions, or wish to ask for containers and labels to identify each waste type, please contact Box Services [Workshop D1]
- Usual types of waste generated and managed in IDIADA are as follows:
DANGEROUS WASTE USE

• Inform of any water leak or spill of dangerous substances
• Use collectors when performing any activity which could leak polluting liquids
• Separate dangerous waste to avoid mixtures that increase its dangerousness

GOOD PRACTICES FOR ELECTRIC CONSUMPTION AND AIR CONDITIONING

• Switch off all electronic devices properly. In standby mode their consumption may rise to 30% of the total (i.e. screens, printers, etc.)
• Close all doors and windows when air conditioning or heating are on
• Make sensible use of air conditioning
• Unplug chargers when device batteries are charged
• Switch lights off when leaving the room for absences >20-30 min.

WATER CONSUMPTION

• Do not let water run unnecessarily and try to keep taps turned off
• Do not use toilets as bins to avoid water treatment problems and to save an average of 10 litres per flush
• Do not throw waste on the floor, or down sinks or toilets that could reach the sewage system, rivers or seas

Different waste types should be properly identified to assure they are correctly managed /Waste needs to be selectively stored

TRAVEL ADVICE

MONEY

The currency in Spain is the euro.

When changing money, you should always use official money exchange offices or banks, as possession and use of counterfeit money is considered a very serious crime in Spain and may lead to prosecution. When buying goods in Spain with credit or debit cards, you may need to show ID. You may be able to use a driving licence or a photocopy of your passport, but you may be required to show your passport.

HEALTH

Make sure you have adequate travel health insurance and accessible funds to cover the cost of any medical treatment abroad and repatriation. If you are referred to a medical facility for treatment, you should contact your insurance/medical assistance company immediately.

Generally, if you need hospital treatment in Spain you can receive appropriate care in a public healthcare facility (although in some tourist areas there may be no public healthcare facility nearby).

Your insurance/medical assistance company will be able to provide further details. If you need emergency medical assistance outside IDIADA’s premises, call Emergency services 112.

ROAD TRAVEL

- Driving is on the right
- Seat belts are required for all passengers in the front and back seats
- You must carry two red triangles which should be placed, in the event of an accident or breakdown, in front and behind the vehicle
- You must have a spare/emergency wheel and the tools to change it or a tyre repair kit. If at any time you must leave your vehicle due to an accident or breakdown or while waiting for the arrival of the emergency services, you must wear a reflective vest, or you may face a heavy fine
- Carry a certificate of insurance in case you are stopped. Remember that this certificate is generally only valid for stays of less than three months. Contact your insurer if you are staying longer
- Using a mobile phone when driving is forbidden, even if you have pulled over to the side of the road. You must be completely away from the road to use your phone. Using an earpiece is also prohibited, but you are allowed to use a mobile phone with a completely hands-free unit
- Spain has strict drink-driving laws. Penalties include heavy fines, loss of licence and imprisonment
- Only use officially registered or licensed taxis
Most visits to Spain are trouble-free, but you should be alert to the existence of pickpockets using distraction techniques. They often work in teams of two or more people and tend to target money and passports. Do not carry all your valuables in one place, and remember to keep a photocopy or scanned copy of your Passport somewhere safe.

Take extra care to guard passport, money and personal belongings when collecting or checking in luggage at the airport, while arranging car hire and in hotel receptions.

There has been an increase in the number of thefts from hire cars. Remove all valuables from the vehicle or store items out of sight, particularly when you park in the street.

In some city centres and resorts, thieves posing as police officers may approach tourists and ask to see their wallets for identification purposes. If this happens to you, establish that the officers are genuine and if necessary, show some other form of ID. Genuine police officers do not ask to see wallets or purses.

Be aware of thieves who target foreign-registered and hire cars. On the highway and in some major cities they will try to make you stop, claiming there is something wrong with your car or that you have damaged theirs. If you decide to stop to check the condition of your/their vehicle, stop in a public area with lights such as a service station, and be extremely wary of anyone offering help.

In hotels & apartments, we strongly recommend closing windows and balconies while sleeping and before leaving the room and to keep your valuables in the safe deposit box.

In any emergency, call 112. To report a crime, including stolen property and lost or stolen passports, visit the nearest Policía Nacional or regional police (Mossos d’Escudra in Catalonia) if you have had belongings stolen, make a police report (denuncia). You will need to keep the report for insurance purposes.

If your passport is lost or stolen, you will also need the report to apply for an emergency travel document from the nearest consulate or embassy of your country and to apply for a replacement passport when you return to your country.
